8” Jointer with Helical Cutterhead
The CX08HC is equipped with a Helical Cutterhead which means it operates more like a sheer or skew cut taken with a hand plane, as the cutters are positioned at an angle to the feed rate and this shearing action provides a quieter, smoother and superior finish compared to the standard knives and the spiral cutterheads.
Introducing **Helical Cutterhead Machines**

8” Jointer with Helical Cutterhead

The CX08HC is equipped with a Helical Cutterhead which means it operates more like a shear or skew cut taken with a hand plane, as the cutters are positioned at an angle to the feed rate and this shearing action provides a quieter, smoother and superior finish compared to the standard knives and the spiral cutters.

12” Jointer with Helical Cutterhead

This 12” jointer with helical cutter-head has all the features woodworkers want for precision jointing and ease of use. With the parallelogram table adjustment you will never have to worry about your tables not being parallel. The 12” wide and 76-3/8” long table provides a perfect work surface for jointing and the fence stops allow to set the fence at 45, 90 and 135 degrees.

- Eight Rows of Helical Cutterhead with 98 Cutters
- Fence Size: 1-1/4” Width, 36” Length, 5” Height, 45°, 90° and 135° Stops
- 3HP, 220V, 1 PH
- Weight: 231kg.

**Introductory Price**

$3899

Available early December
